

GET READY, PLAYER 1

Welcome to the 8-bit game of Pixel Heroes. In this game superheroes battle villains across the city of Pixopolis but some of the pixel blocks have been busted! The heroes need your help to add the pixels back into the levels so that they can defeat the villains once and for all.

You'll need to use different skills in each section to complete the levels for the game.

Character Builder

Power up the hero or villain by copying the mini pixel pic to the larger grid. Use the pixel palette to select the right colours, and then build the blocks to form each character.

Battle

The game has started and the hero and villain are locked in battle. Use the mini pixel pic to build the characters into the scene by precisely pixeling each block.

Freeplay

This section is for you to build your own characters, props and battles. You could imagine more battles between your favourite heroes and villains or even create your own. You could build yourself as a hero or villain, too!

Byte Boxes

Check out the handy Byte Boxes for tips and ideas on what you could pixel in the Freeplay section.

Pixel Palette

You'll need these colours to complete the pixel pictures in this book. Line up your pencils, and then start building blocks by colouring in the pixel squares.

Try making lighter or darker tones of each colour by pressing softer or harder with your pencils.

If you're feeling adventurous you could choose your own colours to pixel in the different characters.

STRONGO MAN

Is it a bird? Is it a plane? No, it's Strongo Man, the leader of the Pixopolis Superhero Squad! Some say that without his green pants, Strongo Man is powerless.

Copy the mini pixel pic of Strongo Man into the grid below as he flies above the city of Pixopolis.

ROCKO

Blocky, stocky Rocko might have rocks in his head but his rock-hard muscles make him Strongo Man's arch nemesis. This villain is really good at smashing things, but not great at anything else.

Build the blocks by copying the mini pixel pic to create Rocko.

STRONGO MAN vs ROCKO

Strongo Man spots Rocko causing trouble in Volcano Valley. Rocko is throwing his weight (and some rocks) around! Luckily Strongo Man can blast the rocks with his super strength.

Copy the mini pixel pics to build the battle between these two foes.

WOWGIRL

This hero is also a woman of mystery. So mysterious is Wowgirl that nobody knows what her powers are. What we do know is, every time she uses her super powers people shout 'WOW!'. Any ideas what they could be?

Copy the pixel pic to find out!

GOTHMAN

Super villain Gothman may look down in the dumps, but he has the power to turn objects into darkness. He's not really the type to enjoy a quiet walk in the park. Perhaps he's up to something.

Add Gothman into the park scene below by copying the pixel pic.

WOWGIRL vs GOTHMAN

We knew Gothman was up to no good. He's trying to turn everything in the park into darkness! Can Wowgirl's powerful lightbeam stop Gothman's darkness ray?

Add the characters to this scene to see who's going to win this battle.

BRAINBOT

This robotic superhero has the mightiest intellect in the entire pixel galaxy. He can outwit the most cunning villains... providing he remembers to charge his batteries.

Copy this pixelated superhero into the scene below.

DR TERROR

Mad scientist and super villain Dr Terror is terrifyingly terrible. Terrible as in really terrible at thinking. So the most original name he could think of was Dr Terror!

Build the blocks below by copying the pixel pic to bring Dr Terror to pixelated life.

BRAINBOT vs DR TERROR

Brainbot has entered Dr Terror's lab to try to stop one of his terrible schemes. Will Brainbot be able to out-think the mad scientist before he uses his shrink ray?

Copy the pixel pics to add Brainbot and Dr Terror to the battle below.

NINJA GRAN

By day, this hero hobbles to the nearest supermarket to get her groceries. By night she is a ninja crime-fighting OAP! Few villains will risk getting in the way of her deadly spinning weapons.

Pixel Ninja Gran in to the scene below by copying the pixel pic.

LORD BEASTLEY

Half-human, half-wolf, this rogue will chase after anything he sees, including his own tail. Is Lord Beastley a true villain, or is he just misunderstood?

Build Lord Beastley into the scene by copying the mini pixel pic.

NINJA GRAN vs LORD BEASTLEY

Reports of Lord Beastley running wild at the ice-rink have reached Ninja Gran. Will Ninja Gran's gift of a woolly jumper warm the beast inside this villain?

Copy the pixel pics to build the characters in to the chilly scene below.

MEGAMOUSE

This mighty rodent is the product of Dr Terror's experiments and hours of tireless training. He escaped Dr Terror's lab and now fights crime... when he's not eating cheese.

Copy the pixel pic of Megamouse in to the grid below. Squeak!

NEPTUNE NIGEL

Nigel is a mysterious green alien with mind-control powers, which he uses to stop people realising that back on his planet he's just a normal alien. Somehow he's managed to sneak into the space base!

Pixel Neptune Nigel in to the scene below.

MEGAMOUSE vs NEPTUNE NIGEL

Neptune Nigel is trying to steal one of the Pixopolis Space Agency's rockets. Luckily Megamouse, with the strength of a million mice, is around to try to stop him!

Copy the pixel pics to add Megamouse and Neptune Nigel to the scene below.

THUMPA

This well-mannered young lady transforms into a mighty superhero every time she says “Wednesday”. Thumpa loves thumping on the ground, creating bone-trembling earthquakes!

Copy the pixel pic and build Thumpa in to the scene below.

POLLYANNA

The permanently perky Pollyanna can sing in a pitch so high, even dogs are deafened. Trouble is... she thinks she's the next big star!

Perfectly pixel Pollyanna into the scene below by copying the pixel pic block-by-block.

THUMPA vs POLLYANNA

Only one person came to Pollyanna's first concert. Luckily that person was Thumpa. Will her quake be enough to stop Pollyanna from singing in a deadly pitch?

Block your ears and copy Pollyanna and Thumpa into the concert hall below.

BOWSER

There's more to this super-pooch than meets the eye, especially when he's travelling by rocket. He's friendly and a bit dribbly but will always save the day.

Copy the pixel pic of Bowser into the grid below to build this superhero hound.

THE FLEA

If The Flea were any larger he'd be seriously scary. Luckily his micro size means his micro plots are easily squished, unless he makes you itch.

Pixel The Flea in to the grid below by copying the mini pixel pic.

BOWSER vs THE FLEA

Reports reach Bowser of a giant bug running around Pixopolis School. The Flea has reversed Dr Terror's shrink ray and has grown to a terrifying size. Poor Bowser must be feeling itchy!

Copy the pixel pics to add The Flea and Bowser to the scene below.

FREEPLAY

Create your own game levels on these blank pages. You could use the superheroes and villains that you've already met, or invent your own.

FREEPLAY

Pixel yourself as a superhero. What's your super power?

FREEPLAY

Build a blocky background by copying the scenery from the character and battle pages.

Build a blocky superhero animal just like Bowser.
