10 WAYS YOU CAN HELP CORAL PROTECTION

1. Educate yourself and others about the places you visit when you travel.

2. Only support responsible fishing.

3. Check that land and water-based leisure activities do not harm marine life.

4. Wear a long-sleeved shirt or a rash guard in the sea instead of using harmful sunscreen.

5. Recycle and avoid littering the oceans and beaches.

6. Support charities and initiatives that help to protect coral reefs.

7. Only support businesses and developments that behave responsibly towards marine life and the ocean.

8. Walk, bike, or use public transport whenever possible.

9. Minimise the use of fertilisers as they will end up in our oceans.

10. Take any other measures you can to help to reduce climate change and warming temperatures.
