Attachment Revolution

Benjamin Perks

Every child should grow up feeling loved, seen, and safe. For twenty-five years, Benjamin Perks has worked to eradicate global barriers to child wellbeing, including poverty, hunger, disease, the mobilisation of child soldiers and population displacement. This passion comes from his own life journey. Benjamin went from being a kid in a children's home to a thought leader. His journey prompted the question: can we do better to prevent child trauma in the first place?

Our Tribal Future

David R Samson

For many, the word tribalism conjures images of bigotry, xenophobia, and sectarian violence. Tribalism gave us co-operation and competition – a powerful evolutionary force most able to predict human behaviour. *Our Tribal Future* explores how altruism, community, kindness, and genocide are all driven by the same core adaptation, explaining the science and ethics of tribalism. A bold and brilliant book that reveals provocative truths about the human condition.

The Art of Physics

Zahaan Bharmal

People are messy. Could ideas from physics allow us to better understand human behaviour? This book shows the surprising ways physics can be applied to answer questions usually considered beyond the remit of science. Drawing on cutting-edge research from quantum mechanics, chaos and complexity theories, *The Art of Physics* shows that science offers a rich vocabulary to tackle the contradictions and unpredictability of daily life.

The Book of Sci Fi Adam Roerts

Long before humans dared to explore the outer space, writers have spun stories of what might lie in the unknown words beyond our planet and gave voice to wild speculations about the future. This striking anthology of classic science fiction stories is the perfect introduction to the wonderful, though scary, world of science fiction.

Yetis Don't Exist! Kate Thompson

Have you heard the news? Yeti's don't exist! The news skipped over the mountains, through the lakes and out to see until it reached Iggy the Yeti and all his friends! All were a bit surprised, so they only had one option – to set off on a human search and change their minds! They searched high and low, yet the humans were nowhere to be seen. Surely that can only mean one thing...A fur-tastically funny rhyming adventure!
